

NEDBANK
INSURANCE

Manage your geyser remotely and save money.

see money differently

The one thing that uses **more** electricity than all other home appliances is your **geyser**. It's also **out of reach** and cannot be **adjusted easily** to save money. Furthermore, geysers burst without warning, at great **expense** and **inconvenience**. So what do you do?

TURN IT INTO A SMART GEYSER

What if there was a way to **control** your geyser **remotely**? With the **Nedbank Insurance Senseable Geyser** solution you can **turn your geyser on and off**, adjust the **temperature** and get **instant** notifications if it's **malfunctioning** – all through your **smart device**.

Once the Senseable Geyser device is installed and you've downloaded the **easy-to-use app** on your smartphone or tablet, you have **complete control** of your geyser. This enables you to:

REDUCE COSTS

- Track daily **geyser electricity usage** (kWh).
- Turn your geyser **on and off** and change the temperature from **anywhere, at any time**.
- Enjoy **substantial savings** on your electricity bill.*

DETECT FAULTS

- Receive **real-time alerts** of all geyser faults.
- Resolve issues quickly with our **fault resolution guide**.
- Receive alerts of **power outages**.

CLAIM WITH EASE

- Have automatic alerts sent to Nedbank Insurance to **log a claim** if necessary. No need to call us – **we'll call you!**
- Have the reassurance that we will **dispatch a plumber** on your behalf.

DO I QUALIFY?

To qualify for the Senseable Geyser solution:

- you need a **smart device**** (cellphone or tablet);
- you must have an indoor electric geyser, with no **solar geyser, heat pump** or timer connected to it;
- you must have a geyser **drip tray**; and
- you must have **Insurance Homeowner's Cover**.

For a quote or more information about the costs, benefits and terms and conditions, contact us on 0860 333 111 or at smartgeyser@nedbank.co.za.

* Saving based on a combination of the size of your geyser, the temperature before installation, setup of a heating schedule and your geyser usage.

** Unfortunately the app is not compatible with Huawei smart devices.
